ROLLER Payments Terminals

Recommended

P400 Plus

With its small footprint and ethernet connection, the Verifone P400 Plus works well on a stationary retail counter.

V400c Plus

The V400c Plus is similar to the P400, but also features a built-in printer.

V400m

The V400m can be powered by a power adapter, or with the included battery pack. It features a built-in printer and 4G fallback in case of connection issues.

S1F2

Mobile terminal with Android Terminal with fast-printing. It features a built-in printer and 4G fallback in case of connection issues.

Keypad Privacy Shield

Customize your terminals

Show an image on the terminal

You can show an image on the display of your payment terminal, for example your logo or an advertisement. By showing an image, you can use your terminal to improve brand awareness and increase shopper loyalty or for marketing purposes.

There is a one-off configuration fee to have a custom image uploaded, see the ROLLER Payments pricing page for details.

Guidelines

For P400Plus, V400cPlus & V400m terminals:

- 320 x 450 pixels
- PNG, JPEG, GIF, or BMP file that you convert to Base64
- Max. 512 KB

For M400 terminals:

- 854 x 432 pixels
- PNG, JPEG, GIF, or BMP file that you convert to Base64
- Max. 512 KB
